

Introducing EuropeanPWN's BusinessXchange

Women mean business. We are delighted to announce the launch of a new functionality on our fantastic online platform : BusinessXchange.

BusinessXchange is designed to help members network for business. Whether you are the founder of a start-up in search of investors, an international tax advisor in Madrid, a manager of an Italian shoe manufacturer looking for distributors in the UK, or a coach who wants to advertise her next workshop in Paris, BusinessXchange will allow you to introduce your business in a short and crisp way, and to specify the type of contacts you are looking for: customers, suppliers, partners, distributors or investors.

This searchable directory is a resource for all members — those offering their services and those looking for providers. Just imagine that all 3,500 EuropeanPWN members' businesses are listed – it will be our first resource when we urgently need to find a PR agency in a foreign city!

As a directory directly linked to the members who represent the business listed, BusinessXchange is unique in a community network. It was designed according to your specifications and to meet your needs for efficient and non-intrusive business promotion and business exchange.

For great business deals, we invite you to check BusinessXchange. You will find it on the menu of the members-only platform, together with greater detail on how it works. Your comments and suggestions are very welcome. Please send these to websteering@europeanpwn.net
